“Having worked camps across the country and being a part of the Louisiana Linecamp for the past 10, I can say that this camp is by far the best lineman camp there is. No other camp teaches and emphasizes fundamental techniques like the Louisiana Line Camp does. Coached by some of the best O & D line coaches in the state, from high school to pros, this is THE camp if you want your lineman to prepare himself for his future!”

Louisiana Line Camp is unique. There have always been speciality camps for quarterbacks, wide receivers, and running backs - now we have a camp for the backbone of all teams - THE LINEMAN. You will receive more than 40 solid hours of instruction and individual attention. No other camp provides this.

We concentrate exclusively on offensive line, tight ends, defensive line and linebackers. All of our coaches are **teachers**. This is a no-frills camp with emphasis on development of skills and techniques to become better linemen.

Open to offensive and defensive linemen from grades 9-12. Offensive line includes center, guards, tackles and tight ends. Defensive line includes nose guards, tackles, ends and **linebackers**.

**\*Coaches - send us groups of lineman and we will work them together as a unit to help develop the teamwork needed for good pass protection and pass rush.**

The Louisiana Line Camp is designed to polish skills and techniques of good offensive and fensive line play. Intensive individual coaching helps to develop confidence and improves team play. There is no contact work.

Points of emphasis:

OFFENSIVE LINE

- Stance - Importance of a good stance allowing you to execute all of your assignments, not a different stance for each assignment.
  - Explosion Drills - Importance of pad level and maintaining power angles in the ankles, knees, and hips during the approach phase of the block.
  - Leverage Drills - Emphasis on finishing what you started - block starts on contact.
  - Steps - Landmarks - Techniques of Individual Blocks. Example: Drive block, Hook block, Down block and Trap block (1st and 2nd level).
  - Steps - Landmarks - Techniques of Combo Blocks. Example: Short combo, Long combo, Inside Zone and Outside Zone.
  - Progression of Individual Pass Sets on defenders aligned inside, head-up, outside, and wide.
  - Incorporation of different pass protection schemes such as Quick (3step), Pocket and Slide (5step), Sprint, and Play Action.
  - Team Work - Working in tandem and as a unit - (bring offensive line teammates with you and work together).
- DEFENSIVE LINE
- Pass rush techniques vs. drop back - play action & three-step drop.
  - Reaction to most commonly used blocking schemes
  - Effective use of hands-on defense for lineman and lindbackers
  - Work habit necessary to become an outstanding defensive player
  - Extensive film study of drills and techniques

PRACTICE SCHEDULE

**PRACTICE SESSIONS:** There will be four sessions each day.

**MORNING SESSION:** (on practice field)  
Sessions emphasis will be on development of individual skills and techniques for good OFF/DEF line play. Morning sessions focus primarily on the running game.

**MIDDAY SESSION:** (on practice field) The regular practice continues skill development and adds pass protection training for the offensive line and pass rush techniques for the defensive

**AFTERNOON SESSION:** (on practice field) Individual skill development is part of every session, but the afernon session focuses primarily on group techniques.

**NIGHT SESSION:** (in meeting room) Skull sessions. Teaching films as well as videos from earlier practice sessions will be used to help improve each individual.
